GATLINBURG CARES

KEEPING THE GREAT SMOKY MOUNTAINS GREEN AND CLEAN

"Here's a well-kept secret about the region you might not know: It's home to what many consider to be one of the most innovative and effective solid waste processing plants in the world, Sevier Solid Waste Inc. Not country – but world."

– Linda Bryant, Knoxville News Sentinel 2018

From breathtaking landscapes and mountain views to rivers and waterfalls, the environment and diversity of wildlife are a foundational part of the visitor experience in the Smokies. As stewards of the majestic Great Smoky Mountains National Park, residents and businesses of Gatlinburg are committed to preserving the natural beauty and wildlife for future generations to enjoy.

Visitors often ask why there are no recycling bins in Sevier County. Sevier Solid Waste Inc. has created a world class recycling and composting facility that renders recycling bins obsolete. The plant successfully handles garbage generated by millions of visitors each year by separating organic waste from recyclable materials. Food, paper and cardboard are placed in aerobic digesters and eventually become compost. Non-organic materials, like metals and plastics, are separated, cleaned and prepared for recycling.

For more information on the green innovations in Gatlinburg, visit: [https:// www.gatlinburg.com/plan/about-gatlinburg/gatlinburg-goes-green/](https://www.gatlinburg.com/plan/about-gatlinburg/gatlinburg-goes-green/)

The City of Gatlinburg has continued its pursuit as a Green City by installing solar-powered, animal proof, trash compacting waste receptacles along the Parkway and animal proof trash receptacles at all City facilities.

G R E A T SMOKY MOUNTAINS N A T I O N A L P A R K

The Cherokee people called this the “Place of Blue Smoke”, for the lovely bluish mist from which the mountain tops rise. Today, it’s the most visited National Park in the United States.

It’s so big, scientists are still discovering some of the plant and animal species that live there.

The park is home to more than 1,500 bears so keep your eyes open when hiking the Smoky Mountain trails. Nothing beats seeing a bear in the park, and there are plenty of other breathtaking sights here in the Smoky Mountains – waterfalls, winding valleys and century-old architecture.

Take a drive and feel your heart come alive. Early explorers may have had some of the first glimpses of the beauty of the Smoky Mountains, but only after many weeks of difficult bushwhacking across treacherous terrain. Fortunately for today’s visitors, Great Smoky Mountain National Park has paved the way (literally) for easy viewing

of the Smokies’ most prominent features and stunning views.

There’s no wrong way to take in the extraordinary beauty of the Smoky Mountains, but to catch the close-up grandeur of Smoky Mountain waterfalls and endless forests means lacing up your hiking boots. Some of the most scenic hiking trails in Tennessee are found right here, winding through wildlife habitats and old-growth forests to the area’s most popular sights.

Few experiences in nature are more rewarding than taking in the sights and sounds of a hike and knowing that majestic waterfalls and awe-inspiring vistas await you at the end.

Vacations are all about escaping the everyday, and nothing will remind you of that more quickly than spotting a bear or elk in the Smokies. Because Great Smoky Mountain National Park is a thriving black bear

habitat, chances are good you’ll catch a sight of these magnificent creatures, along with an incredibly diverse population of plant and animal species.

Who were some of the first settlers in the region? What did the first Smoky Mountain cabins look like? What was it like to go to school in the 1800s in Appalachia? Learn all there is to know about Gatlinburg and the Smokies at these eastern Tennessee historical sites. History and culture lessons abound in the old homesteads, mills and schoolhouses that remain in the Smoky Mountains.

Gatlinburg is home to many scenic and accessible spots perfect for bringing back the lost joy of picnicking. Admire the antique architecture of century-old cabins and mills at Cades Cove picnic area, soak up the scenery of the Little Pigeon River at the Chimneys picnic area or share a meal at one of several other designated picnic spots in and near Gatlinburg.

For more information visit: www.nps.gov/grsm

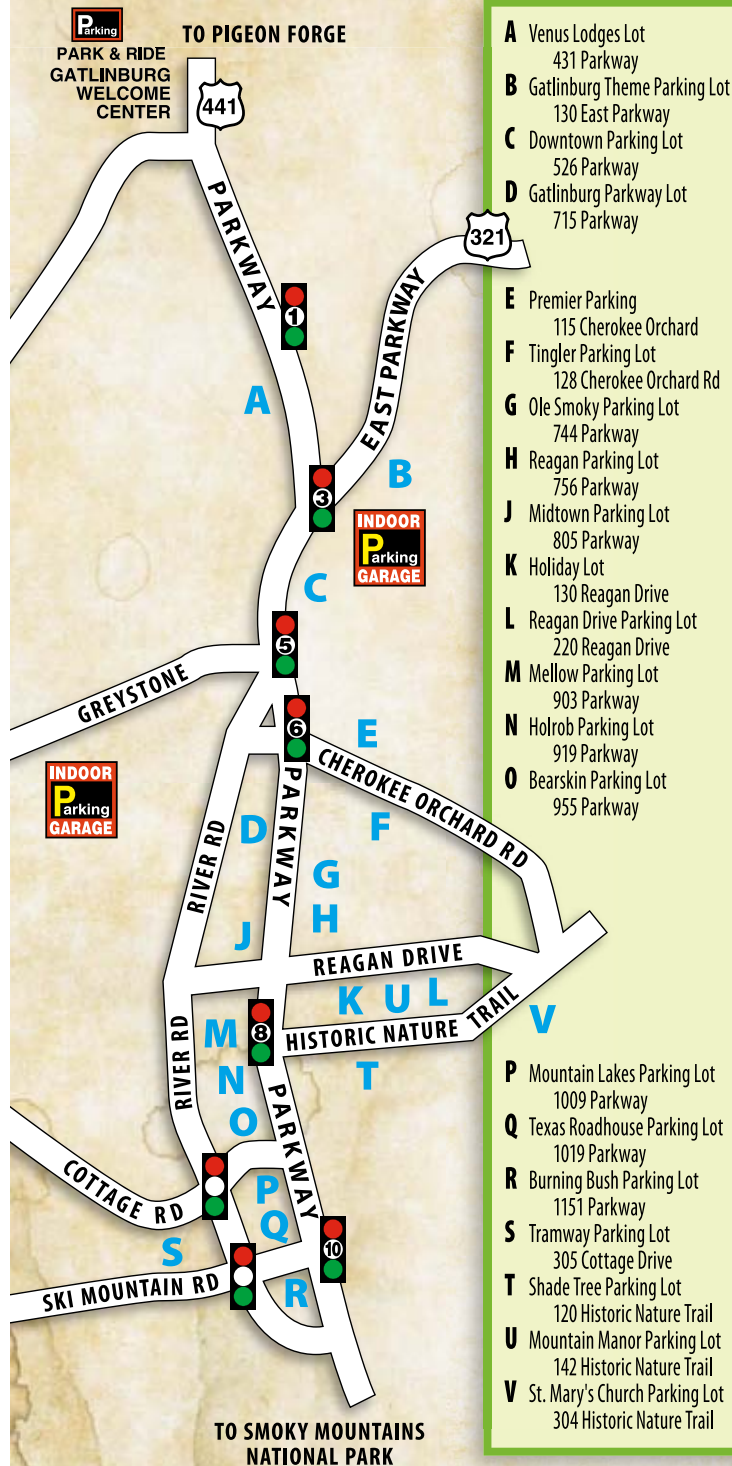

The Gatlinburg Welcome Center, located on Highway 441 just north of town, is home to a unique store featuring items that are **Made in Gatlinburg**. Representing products from the Great Smoky Arts & Crafts Community, you can select a perfect Gatlinburg souvenir to take home, or use the store as an introduction to our Arts & Crafts Community located just minutes from downtown. Open daily except Christmas Day.

Wintertime visitors of Gatlinburg are in for a flurry of action-packed activities during the holiday season, highlighted by enhanced seasonal décor featuring over 50 whimsical Snowpeople placed throughout the city. **Winterfest runs from November through January** and includes special events for the entire family. The city transforms into a Winter Wonderland of 3 million LED animated twinkling light displays. For this special season only, Gatlinburg offers a magical **Trolley Tour of Lights**. On the first Friday in December, the **Gatlinburg Fantasy of Lights Christmas Parade** will step off, where hundreds of thousands of lights roll down the Parkway on elaborately decorated floats in the South's oldest nighttime parade.
