For over 40 years, spanning three generations, Smoky Mountain Relic Room has developed friendships with dealers, collectors, and discoverers of history from all over the world.

These connections enable us to assemble an ever-changing collection of historical objects. Our obsession with history borders on insanity! You will never find such a bewildering assortment of all things old and ancient, in one place. From fossils, minerals and meteorites to antique documents and WWII artifacts, we have specimens for sale from nearly every epoch of Earth's history and all periods of human existence! Museums can't hold every artifact made, fossil that formed, crystal that grew, or meteorite that fell. That's why it is up to us to do our part and take care of history. In return, those items will allow us to wonder and imagine about the past, giving us a better perspective on our future. Here at the Relic Room, we offer you the chance to be caretakers of our planet's history.
