SPEEDWERKZ
EXOTIC CAR EXPERIENCE

A small group of lifelong friends, born and raised in East Tennessee, have always used cars like these as motivation to push towards their dreams.

We have always envisioned introducing something like Speedwerkz to the area - to give everyone who visits access to some of the rarest and most exotic cars ever made. In most cases, cars like these are purchased, then stowed away in garage's and therefore never seen in the flesh. We are pleased to showcase them in a completely unique environment for everyone to come view.

Speedwerkz is about passion, excitement and providing a fun experience for everyone that visits. We love people and seeing them awestruck, like we are, by exotic cars like these.

Part of any experience is stimulating different senses. We have worked extremely hard on providing an incredible home for these cars to live in. From the lighting elements, to the sounds, the visuals and having them spinning on carturners. This gives our space a dynamic that you simply can't put into words. It just has to be seen! Think video gaming coming to life!
